Regatta 1881.

The annual Regatta will take place on Tuesday next 1st November at the Tigre.

The Committee have much pleasure in informing members, their friends, and the public, that, in place of a steamer, they have secured the exclusive use of the 'Alameda' Grounds connected with the Government Slip on the Lujan River, which stretch for some distance along its bank, thus affording an excellent view of the course.

A special train will leave the Central Station at 10.35 a.m. returning from the Tigre at 6 p.m, calling only at Retiro and Belgrano each way. Return-Tickets $ 34 m/c, available also for the ordinary trains, which leave the Tigre at 3 p.m., 4.30 p.m., 6.00 p.m., and 8.45 p.m.

A steamer has been engaged to convey passengers by the special train to the Grounds.

Tickets for the Steamer and Grounds can be obtained on and after Tuesday, 25th inst from Mr. A. G. Tupper 277 Cangallo, Libraria Macken Florida 137 and the undersigned, at the following prices:

Ladies $ 10, Members $ 20, Non-members $ 30 and programmes can be obtained at same places on and after Friday.

Luncheon will be provided in tents on the Ground by Mr. Hansen of Palermo at $ 30 m/c each person, and no luncheon baskets will be allowed on the Ground.

No person will be admitted on to the Ground unless provided with the necessary ticket.

THE PERUVIAN QUESTION.

A good deal of fresh light is thrown on the famous Hurlbut note, and the policy of the United States towards Chile and Peru, by the following extracts and correspondence published in a late number of the N. York *World*, and which we received yesterday by the mail. The *World* says:—

"It will be seen by our Peruvian correspondence to-day that a great opportunity is open to the Secretary of State in South America for exerting the influence of the United States to bring about a settlement of the disastrous war between Chile and Peru on principles of republican justice and equity. It will be an evil day for the two Americas when the European practice of dismembering defeated countries for the supposed advantage of their victorious enemies becomes a consecrated usage of American warfare. It concerns the commerce and the civilization of the world that this evil day should not arrive. The U. States can check its advent at the South, and what the U. States can do the U. States in this case ought to do". And the correspondent of the *World* in Lima writes as follows:—

"Mr Osborne has done good service to both of the American continents by the share which he has taken in bringing about a pacific settlement of the long-pending boundary disputes between Chile and the Argentine Republic. This settlement was most fortunate for Chile, as the Argentines have been preparing themselves for some time past to go to war with Chile rather than submit to any encroachments upon what they regard as Argentine territory. They are better off financially than Chile, and they have a larger force available for military operations, besides which the English have been building them some of the most formidable men-of-war afloat. The Chilians would pretty surely have gnawed a file had they allowed the more reckless among the war party in Santiago to drag them into this new conflict, especially as they have not yet settled the account opened by them with Peru and Bolivia. It is most unfortunate that Mr Christiancy should not have been as successful in his efforts to make peace between Chile and the West Coast allies at Arica, as Mr Osborne has since been in the Argentine matter. It does not seem to be at all clear, however, that for this want of success Mr Christiancy ought to be held wholly responsible. The State Department at home, under Mr Evarts, hardly appears to have appreciated the great importance, present and prospective, to our interests of the restoration of peace upon this coast on terms just and fair to all the belligerents.

There are symptoms of a change for the better in this respect. The new United States Minister, General Hurlbut, is generally believed to have come out here especially empowered to exert the good offices of the United States anew and with greater emphasis to put a stop to the work of demoralization and des-

truction which has been going on and is still going on now all over the once flourishing West Coast, thanks to this abominable war in the first place, and in the second place to the pressure put upon the better classes in Chile by the populace and the 'military element' there in favor of enforcing harsh and ruinous terms upon Peru. Señor Manuel Godoy, who is here as Chilian Plenipotentiary, has so far refused to treat with the plenipotentiaries appointed by Provisional President Calderon, and the question whether he should do this was yesterday referred by telegraph to the Chilian Government at Santiago. Of course if there is ever to be peace preliminary negotiations for peace must be entered upon. There can be no doubt that the Government of President Calderon has been recognized by a full quorum of legally chosen members of the Peruvian Congress. But the general impression is that Señor Godoy desires to insist upon the cession to Chile of the whole province of Tarapaca, and that he is therefore trying to delay negotiations in the hope that the new President of Chile, who goes into office on the 16th September, will declare for the cession. The Peruvians cannot consent to such a cession without committing a national suicide. They are entirely willing to pay any necessary war indemnity, but they point with great force to the fact that Chile in the outset of the war, and afterwards in the conferences at Arica, earnestly disclaimed any idea of conquest in her prosecution of the war. This is unquestionable, and it is quite as unquestionable that the annexation of Tarapaca by Chile will not only prostrate Peru politically and socially, but condemn Chile herself and the whole West Coast to a new era of militarism—the ancient and terrible scourge of these rich and interesting countries. All intelligent foreigners as well as a great body of intelligent natives both here and in Chile understand this fully, and the universal hope of all such persons is that the United States will intervene with the irresistible weight of their moral as well as of their material power to prevent such a consummation. Popular as the United States have already become in South America through the success of Mr Osborne's negotiations as between Chile and the Argentine Republic, they will become ten times more popular should it be found that General Hurlbut is clothed with power to bring about 'peace with honour', and without cession of territory, between Chile and Peru. The European powers interested in this coast show the most cordial inclination in this direction. Their representatives go to the verge of diplomatic propriety in their expressions of the hope that the Washington Government means as a friend of both republics to save the Chilians from committing political suicide by staying their hands from committing political murder. That Peru, if suffered to recover herself, can acquit a large indemnity to Chile, seems to be clear. The Chilians, who holdall the coast, admit that in the present deranged state of trade and commerce they have taken in in customs dues at the Peruvian ports more than $400-000 in the single month of June. Firm, kindly, impartial action taken now by the United States can bring about, I am persuaded, a peace which shall insure to Chile all the legitimate fruits of her victories and yet insure to Peru the internal peace and order which would be overthrown for years to come by a violent dismemberment of her domains. It is of the highest moment, not to our own prestige only in South America but to our permanent interests as a great commercial power, that the U. States should help the Chilians to understand at a very early day what commerce and civilization expect of them in their new character of a victorious republic.

GENERAL OSBORN.

(*From the Nacion.*)

This name must henceforward hold a high place in the esteem and affection of the Argentine people. Representing, as he does, the nation that we have taken and still take as a model for our complicated task of political organization, General Osborn has, with rare tact, united a strict discharge of his diplomatic duties with a beneficial influence on the development of our national greatness.

His circumepect and dignified attitude in all the eventualities he has seen during his long residence on Argentine soil, his laudable efforts to increase trade between his country and ours, his keen interest in all our budding institutions, and his efforts to improve them have secured for him, for years past, the respectful esteem of both Argentines and foreigners, who see in him the perfect type of the representative of a great people and the country 'par excellence' of Progress, Liberty and Democracy.

Now, we have a fresh and honoured title to add to those we have enumerated, one which not only calls for public esteem, but imposes a debt of gratitude on all. His intervention in the negotiations which have led to the definite solution of the knotty Argentine-Chileno problem is known to all, as also the untiring zeal and perseverance with which he worked in union with his colleague the ex-United States Minister in Chile, to overcome the difficulties in the way of the celebration and ratification of the Treaty, and the intelligence and practical good sense he brought to bear on his noble task.

We cannot now detail all his merits, but it is our duty, and we fulfill it with sincere pleasure, to point them out to the public, for their gratitude throughout all time, at the moment when his generous and prolific work is crowned with the most complete success.

General Osborn knows, and has had eloquent proof on many occasions, how Argentines regard his noble country, and their respect for its example, as well as the admiration we feel for the grandeur of its conquests in every path of Progress. General Osborne knows this and can and ought to make it known to his country, that it may see the extent of our love and esteem for it.

We Argentines, for our part, can only assure the North American people that they could not possibly have sent to us a worthier representative of their country than the mediator in the negotiations which have secured for us peace with Chile—Gen. Thomas O. Osborn.

THE COLORADO CAMPS.

Bahia Blanca, October 6, 1881.

Dear Sir,

When I had the pleasure of seeing you for the last time, before leaving Buenos Aires for the purpose of surveying the camps between the rivers Colorado and Negro, I promised to send you a description of the quality of camp which I should encounter, and I am most happy to be able to do so now, having finished the survey of the river Colorado, far to the west of the Island of Choel-e-Choele.

I had provided horses and provisions in Azul, received in Carhue a fresh supply of Government horses and a sufficiency of soldiers, and directed my way, well provided, to the Paso de Alsina, where I intended to cross the river Colorado, misled by the descriptions of the President's success in crossing at this point, and by your communication that 5,000 cows had forded the river last winter at the same pass. The Paso Alsina is to-day impracticable and not to be trusted: the shifting sands, the rapids and the difficulty in reaching the place, made it preferable for me to go 18 leagues further down the river and cross at Fortin Mercedes, where boatmen facilitate the crossing with ropes, men and boats.

Later on in the course of my survey I discovered places where I might have crossed without expense and in perfect security, where I should have found hard ground and little water, and where I could see that Indians had been passing lately, but at my arrival I had not heard of these passes yet, and experience is not to be gained for nothing.

The distance from Fortin Mercedes to the fifth meridien is 17 leagues, and at this point I took up my survey and measured 40 leagues in a westerly direction. Sometimes I would draw a line down to the river side in order to get water, and then draw off again to the inside camps to reach my western limits. So I got the opportunity of studying both classes of camp, the riverside camp and the inner camp, and for 60 leagues of distance I found them nearly everywhere of the same class. Alongside the river, say to the distance of from 200 to to 800 metres, the ground is fertile, rich in black soil and in good vegetation: gramilla and trevol de olor abound everywhere. Better or more promising camps are not to be found in this Republic. Thousands and thousands of cows could feed and fatten in this stretch of camp, with its genial climate, its protected situation.

While I was riding quietly along this narrow slip of land, enjoying the sight of my horses, which became every day fatter and livelier, after suffering so much galloping from morning till night on the hard Olavarria and Curramalan road, I received despatches from Buenos Aires, stating that the winter had set in with southerly winds and much force, and that it was very likely that I had to suffer a good deal from the cold, being so far away to the south, and yet I never heard any of the men complain: both soldiers and my private men slept in their saddles, and I crept at night into the high grass or junks, covering myself with my sheepskin, and never remember to have felt cold. So much for the genial climate of the fertile land of the Colorado. Even a tent in winter time I consider a superfluous appendix for hardy men such as these men I had brought out with me.

But now changes the scene. Moving away from the river side we meet the borders of the high level inside ground. It is a sharp and hard border line which runs parallel with the river, full of stones, and what kind of stones! Sharp, pointed, hard and cutting stones project on all sides. They will cut boots like knives, horses snort at them, and riders dismount, knowing what befalls themselves should the horses stumble. Intermingled with these stones grow the tuna. We used to call them cactus in my native country, and had them in small pots in the sunshine, enjoying their beautiful red flowers, but here they grow like the devil-fish, with many arms, nasty and horrid to look at, full of thorns, and woe to the chainman who stumbles and falls into them; like the devil-fish they catch hold of him, and he does not extricate himself without help from his companions, and also getting his legs and arms full of thorns, sharp as needles, poisonous like opium. And yet these horrid things can be useful. I saw one soldier once dismount and cut a cactus. 'Corporal,' I said, 'what are you doing?' 'Patron,' he answered, 'we have had no water today, I am chewing the tuna, take a piece.' Well, I took it, but for thirst a glass of brown stout is decidedly better.

Where the tuna leaves room grows the piquillin, chañar and other thorny plants. The surveyor has to wind his way through them: two men with hatchets lead the way, but it is hardly any use. I preferred, after some experience, to draw the chain on one side or above the bushes, losing the exactness of my survey, but gaining time.

Grass will not grow on the high level ground, the bushes would kill it, and where a few leaves spring up its quality is hard and it gives no noarishment. The soil itself is barren, sand and sand, stones, clay pebbles. I have gone along this ground for days and days, and I have not seen sufficient black soil to fill a flower-pot.

Bleak and barren, thorny and sandy and stony is the whole region of camp between the rivers Colorado and Negro; wherever I have gone it is the same. Birds disappear: the chimango can not live, the biscacho can not dig, even the pitche and mullita are never caught. Every campman knows that 4 or 5 mulitas are easily caught every day in an inside survey. In the rio Colorado survey I hardly tasted a roasted mulita. As to water, it is quite impossible that it should be found; even after a 2 days' heavy rain I did not find any lakes or water hobs. On a stormy day this region is so clouded that it is difficult to work; the air is full of sand, it enters the teakettle fills the meat and the mouth and gets into the best preserved boxes of the best instruments. It is a painful feeling to hear those fine instruments, the Negretti and Zambra sextants, divided into 10 seconds, commence to grind and scratch with the dust below the limbus, and to know that henceforth the great exactness of those instruments is lost; thousands of dollars have been spent and wasted in this infernal region.

(*To be concluded.*)

EDITOR'S TABLE.

The weather veered round again yesterday and was simply delicious Monday night, however, was as cold as Charity. Friends in from the camp describe the rain on Saturday and Sunday as something unprecedented, and farmers are nervous lest 'fluke' get into the flocks through such an extent of land being flooded. The weather looked more like settling down, yesterday than we have yet seen it.

We are pleased to hear that Don Emilio Castro is quite recovered. He was about town yesterday.

President Roca will give shortly a grand banquet to General Osborn and Dr Irigoyen, in honour of the part they played in settling the Chilian Question.

Baron Cove, the new Italian Minister, will present his credentials this week to President Roca.

The British community is now sounding the note of preparation for the Rowing Club's regatta on Tuesday next, Nov. 1st. This annual aquatic meeting is the British fete par excellence of the R. Plate; it reminds us all of home, although the ripples of the Tigre are a poor substitute for the waves of the Solent or Dublin Bay. The Committee have instituted a decided improvement this year: There will be no Club steamer, but a splendid 'Grand Stand' on shore. Bravo! See advertizement.

The telegrams from Valparaiso published yesterday left poor General Kilpatrick, U. S. Minister, in Chile, 'in articulo mortis.' No hope of saving him. He summoned the Chilian Minister of Foreign Affairs to his bedside and asked him to take care of his family. Mrs Kilpatrick is a Chilian lady.

The Chilians are taking steps to secure their conquests in Peru, especially Tarapaca, which is supposed to be the object of attack by the Bolivian army under Campero. President Calderon offers to make peace with Peru and pay costs of war and an indemnity, but expects Chile not to ask for any territory. This is just what she will ask for.

We congratulate our colleague *La Patria Argentina* on its increased size. It is one of the newsiest of our colleagues and quite an example in the late telegram way.

Dr Cunningham left town yesterday afternoon for Rosario, where he intends to reside and assist the Rev Mr Lett in his ministrations there.

We must warmly compliment our colleague *La Republica* on its new 'traje' and manner of wearing it. It is a great improvement. The repeated occasions which we have had of late of congratulating our colleagues on their enlarged size, new type &c, reflect the good times. Newspapers never make money in troubled times, although there is a false idea that they do. We intend to go in for a little improvement ourselves next month, just to keep in the fashion and pick up a few crumbs of the intense mutual admiration which has become chronic of late with our city colleagues.

The torpedo launch Py was within an ace of being driven on shore by the gale on Sunday, but, thanks to the seamanship of Lieut. Manuel Garcia, she was saved and made for the Tigre at the rate of 20 miles an hour, all the 'salts' on the beach rubbing their eyes as if they were looking at a railway train running over the water.

Another big order for railway materials has been sent to Mr Alejandro Paz, the National agent in Europe in such matters.

The good people of Montevideo are crazy with admiration of the ironclad Admiral Brown, and hundreds of boats surround her all day. A grand banquet was given in Montevideo last night to Commodore Cordero and his officers. The Brown has a crew of 280 men, mostly English, but there are a good number of Argentines amongst them. She sails to-day for this port. During the gale on Sunday and Monday she rode at her anchors like a cork, although her enormous weight dragged them a little; but she was never in any danger, and kept her fires up, ready for any emergency.

Crowds of people flock to the Politeama to witness the novelties which are now being introduced, and were it only to see the happy faces of the children it would indeed be worth going to witness; in spite of the disagreeable weather on Sunday the house was crowded with beautiful children. The public will, no doubt, be glad to learn that the Japanese juggler has recovered his lost luggage which was accidentally left in Rio, and now shows a lot of new tricks which are most amusing. This popular theatre is nightly visited by people whom you would least expect to meet there, lawyers, auctioneers, escribanos and many distinguished officers in the army and navy. A circus is always a democratic entertainment, it is therefore not to be expected that the High Life will go, except to take their children.

One of the most attractive performances yet given at Colon by Mr Grau's Company is to take place to-night for the benefit of Mr Maugé, the baritone. The Traviata, so well known and so much appreciated, will be a real treat for all lovers of good music, and people will have a fresh opportunity of witnessing the vocal and histrionic powers of this pleasing artist, so let us hope he will have a good house and meet with the applause he deserves. It is much to be regretted that Mr Grau's complete and attractive Company should have met with such feeble support; really it is doubtful when we shall see another Paola Marié here. So lively, so charming and so 'sédnisante' an actress is not to be met with every day.

There are 44 horses entered for the Argentine Blue Ribbon race at Lujan next year.

Our native colleagues were filled yesterday with telegrams of congratulation to President Roca and Dr Irigoyen, on the happy termination of the Chilian Question. They came from Governors, ex-Governors, Bishops, 'Gefes' and officials of all grades. The best of the whole of them was that from ex-President Pinto of Chile to President Roca, stating that the joy in Chile is quite as great as here at the celebration of the Treaty.

We regret sincerely the death by drowning of Mr Nicol, an estanciero near Chascomus; he was trying to cross the Somborombon and got caught in the current and was carried down; his body has not yet been recovered. Mr Nicol was much esteemed by all who knew him; he leaves a widow and two young children. We attribute this unhappy affair to the great floods in those camps, and poor Mr Nicol was perhaps trying to cross the river to save his stock.

Should any of our fair subscribers have lost a nacar fan in Calle Florida on Monday, we beg to inform her that it is in the Policia at her 'disposicion.'

It will be seen by reference to our advertising columns that Messrs Jacobsen & Co have received an unusually large shipment of Christmas and New Year's Cards, so that parties wishing to send their fond remembrances and best wishes to friends at home, may get a supply of Cards in the most recherché style. Messrs Jacobsen also undertake to deliver any of these on any given day by having instructions in time, so now is the proper moment to be looking up old lists of friends, and forward hearty greetings to them on the great festival of the year. Many a heart will be made gay by the receipt of one of these elegant souvenirs wishing the hearty 'compliments of the season.'

We were told yesterday that the Northern Railway has been fined by the Municipality, or some other body, for not advertizing its recent change of time-table sufficiently in the news papers. We're delighted to hear it. No fine can possibly be too heavy for a Company that does not advertize largely, very largely; and we only wish that Congress would take a proper view of the matter and oblige every man, firm and company in business in the republic to advertize something, no matter what, at least thrice a week, in the newspapers, under pain of capital punishment, or at least imprisonment for life. Advertizing blesseth him that gives the 'aviso' and him that takes the cash for it, whilst the public reap untold blessings from the transaction.

ON 'CHANGE.

	Oct. 25th
Patacons	25.40
Cedulas A	99
Cedulas B	96½
National Bank Shares	123¾

There was a great drop in the National Bank Share market to-day, which began in the morning and held till the brokers left the hall at half past 4 o'clock. It seems that one heavy Italian holder threw up the 'poncho' and the shares, and to the astonishment of his compatriots sold out. Many consider that it is but a trick to get the ring to sell short, but whatever may be the motives the result is most plain, and shares that stood on Saturday night firm at 127 were done this afternoon at 120¾.

The gold market kept very even; prices for cash 25.40; sales 12,500. For end of month sales amounted to 137,500, opening at 25.45 and closing at 25.40. Sales for January, February and March at 25.45. Total day's sales, 350,100 pats.

Cedulas, none of Series A sold cash, but one lot of 6,800 sold at 99½. For Oct. and Nov. sales at 99, and one lot for Nov. disponible at at 99½.

In National Bank Shares the sales amounted to 15,150 shares, which always means high pressure speculation. For cash not a single share marked, but a German broker bought 5 shares cash in the morning at 123¾. For end of month 6,550 shares sold, opening at 125 dropping to 123, and closing 123½. For Nov. 8,600 shares sold, opening at 125 dropping to 123½ closing at 124½.

National Bonds, one small lot sold at 80; many buyers at this rate, and we heard for the lot of 30,000 offering on sale a bid of 84 made and refused; still the impression in the market is that Hard Dollars are coming out in the steamers from London.

The sales at the ring were—

Gold at afternoon ruled about the same, buyers at 25.40, sellers 25.45. There seems to be no interest whatever in gold at present, all speculation being in Nat. Bank Shares.

Cedulas rule the same; holders offer to sell freely at 99 for end of month and at long dates, but buyers stand back for 98½; the few sales made at afternoon were done at 99 for end of month.

In Nat. Bank Shares the drop was more pronounced about 3 o'clock, and the market looked dreadfully weak, sales being made down to 120¾, after which there came a slight reaction and prices ruled at the closing hour at 121 or thereabout.

The Captain and some officers of the Elbe steamed up Riachuelo and landed at Tres Esquinas, evidently looking for the site of the Woodgate docks.

The *Revista Mercantil*, in its fortnightly review of the market, says that the improvement looked forwarded to has not yet taken place, owing to the fact that many of the buyers suffered severely last season by the sudden and great fall in the price of produce in which they had invested large sums, while others have postponed their usual visits to the city in consequence of the superabundance of rain which has made the roads quite intransitable for carts with merchandise. Little business done in the wool market, the copious rains having stopped the arrivals. Some contracts have been made for unshorn wool. The lots sold in the camp are small and realised from 75 to 86 m/c per ar. There is still a considerable stock of old wool in deposit. Sellers of new wools hold out for high prices, while the buyers, who nearly all lost heavily last season, are exceedingly cautious. The news regarding wool is unfavorable, and the same may be said of grease. The law regulating the Custom duties for 1882 is anxiously awaited in commercial circles. The money market remains unchanged; discounts in paper done at 8 o/o and pagarés at 7 o/o: gold has declined to 25.40. The general situation of the country is flattering, and agriculture is making great strides; it is estimated that the export of linseed, which is quite a new production in this country, will this season reach the important figure of 600,000 arrobas.

The latest news about wool in the U. States are as follows:—

"Holders of the stock of domestic wools continue to express much confidence in the outlook, and while recent sales on other articles of merchandise have, as a general influence, tended to check expectations of any very decided buoyancy, the development of the fall trade it is thought must benefit prices on all classes of stock, indeed buyers themselves admit the cost of wool is by no means extreme, and that the position of holders is well fortified; but as there is no immediate necessity for handling supplies, the demand is held in abeyance for all the benefits likely to come out of a dull market whenever such a course is possible. The results of the week, however, seem to show that wants are increasing somewhat, rather a larger attendance of customers appearing upon the market, and in addition to fair sales closed, negotiations are under way on considerable additional amounts. The business has been at about former rates, but the influence is to give cost generally a better support. Advices from the interior are firm, and the foreign accounts encouraging for holders. Altogether, it looks as though the market had passed over its worst period of depression and was making the anticipated turn for the better.

"The following is from the circular of Coates Bros., Philadelphia:—During the past week there has been considerable activity. Manufacturers have bought freely. Sales have been large and prices are firmer and stronger. On some kinds an advance can be quoted. Those grades which have not heretofore been in demand are being held firmly. These large sales have reduced the stock here and have made a good opening for future shipments. Very little wool, however, is now coming forward from the West. Most indications point to a good trade for wool and manufactured goods throughout the coming season, unless the foreign markets should break, which does not now seem probable."

The Exhibition works in the Plaza Once are now going ahead, and the calls on the shares having now been all paid up, the secretary of the Company is delivering the shares to the shareholders; they are neatly lithographed, resembling National Bank Shares, and we understand from the Secretary are in demand at 10 premium. The National Government advances to the Exhibition 130,000 fuertes and has named a special committee. The Municipality will at once commence to adoquinar Calle Rivadavia to the Plaza, which will be a great boon. In fall the Provinces special committees have been formed to send articles to the Exhibition, and it is our belief the affair will prove the most brilliant success.

The cable steamer returned with Mr Oldham on board from Rio Grande coast yesterday, and is coaling in Montevideo owing to the very severe weather. Mr Oldham has to the present been unable to repair the break; when the weather settles the break will be settled.

The National Government, we hear, is getting maps and plans of all the lands South of Rio Negro and reaching to Nahuel Huapi with the view to offer these lands for sale in Europe; a most important move and likely to prove of great advantage to the country.

The arrivals of emigrants within last few days are unusually large; the two Italian steamers Colombo and Genoa bring between them over 1,400 emigrants, whilst the other steamers in also bring a few. There is no mistaking it, Immigration is again on the rise, and we see by the New York papers that attention is called to the great value of Italian labor. We hold for to-morrow a most interesting paper on this subject published in New York.

On Sunday night the Argentine treaty arrived at Santiago, and the treaty was then and there exchanged; the chasque with the treaty was only one day behind his time. We note exchange is rising in Chile, a good sign, and was quoted yesterday in Valparaiso at 38⅛.

We publish in another column a most interesting description of the camp on the Colorado river, and also the camps stretching from the Colorado to Rio Negro. We recommend the paper to those who hold lands down there, as it is written by Mr Freund, the engineer who is at present engaged by the Government to survey those lands, and he therefore only reports what he sees.

We heard on Change that all the stamp paper stolen from the National Contribucion Directa Office being numbered is stopped by telegram throughout the Republic; hence the stolen stamps are useless.

The Deputies passed yesterday the new Mint or Money Law; so this long pending question is at last disposed of. The law establishes bi-metallism, and the new gold and silver coins will come into circulation at the beginning of the new year.

The weather has again cleared up, but not much shearing can be carried on for a few days. At the Sauce Corto and down there, the floods have been so great that the diligences were stopped and the passengers had to swim the rivers; still floods at this time of the year are not so dangerous as in winter, and the waters subside very quickly.

Messrs. Belaustegui & Co have obtained the important contract with the War Office for 5000 metres cloth for Uniforms.

The Villarino leaves for Bahia Blanca and Patagones on 28th inst; we hope she will have better weather than the last trip.

The French S.S. Senegal took the following:

1600 bales
4500 hides
25 passengers

The *Patria*, we notice, has a new telegraphic service now from Lisbon, and gives news different from the Havas Agency.

It is said on 'Change that Ex. Pres. Pinto will be accredited to this Republic as new Jhilian Minister; his telegram to President Roca on the ratification of the treaties is most complimentary.

The creditors of M Vignone have 15 days to examine the statements of creditors etc, at the office of the Juez Comisario Mr. W. Cranwell.

The Court has declared the failures of A. Bottini and R. Sanchez as both fraudulent.

The estancia in Santa Fe, belonging to the estate of Mr. Lopez, has been sold, by order of the Juiga, by Messrs. Baltar and Quesada, for 2,250 fts. And the real estate belonging to the estate of Don J. Casajénas has been appraised at 2,200,000m/c. and the valuation approved.

The wool market seems to have lost all its buoyancy and prices are now from 8 to 10 lower than when the first few lots came in. A splendid wool from Lujan was sold this morning at 88; this is considered one of the very best wools and was bought outside by an accoiador at 86, which at the time was considered a great bargain; the result, however, proves that the estanciero acted most wisely in selling. Wools this season must be in very superior condition to fetch 80, as if now only 86 or 88 is paid for some of our best lots, when the weight of the wool comes to market prices will necessarily rule much lower,

Mr J Ledesma, head of the leading Argentine firm Ledesma Hermanos, will leave in the Elbe on a short trip to Europe. We wish him a pleasant voyage and hope to see him soon back in the R. Plate. Mr Ledesma has filled the post of Director of National Bank, Municipal and other important trusts.

Messrs G Gowland & Co.'s important real estate auctions on Monday of the properties belonging to the estate of Madame Lagos de Wilde proved a brilliant success; the property sold as follows:—

House Calle Maipu Nos. 125 to 129 for $740,000; buyer Sr Dr Dn F J Ortiz.

House Calle Tacuari No. 22 for 536,000; buyer Sr D Conrado Lagos.

House Calle Tacuari No 28 for $340,000; buyer Sr D Conrado Lagos.

Total, $1,616,000.

Owing to the severe gale the Jupiter was delayed; she therefore goes to-morrow to the Uruguay.

Great interest is taken in the auction of six square leagues of land within 11 leagues of Bahia Blanca and adjoining Mr Casey's splendid Cuamalan estate. This property belongs to Don Atalliva Roca and was picked out by some of the military men down there as the very best land in that district; the valuation put on is low, $110,000 per league, and we have no doubt it will sell well. The auction comes off at Baltar & Quesada on Friday Nov. 4th. The land is well watered and has the very best pasturages.

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Diehl. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

Venderemos por el precio que exceda de la pequeña base que se le ha fijado y por orden terminante de su dueño.

Seis leguas proximamente de campo que como hemos dicho dista solo 11 leguas del pueblo de Bahia Blanca y cual esta en la Provincia de Buenos Aires, lindando con la zanja del Fuerte Argentino lo cual lo garantee mucho mas que a cualquiera otro y viniendo a quedar su ubicacion entre este Fuerte y Puan.

Al campo lo cruzan dos caudalosos arroyos el Corta Pie y el Pelicura poseyendo a mas varias lagunas, por cuya razon, y por la escelencia de sus pastos tiernos, reconocidos como los mejores de aquel parage, resolvieron el general Garcia y Coronel Donovan en la expedicion, establecer alli las grandes invernadas del ejercito.

Por esta razon hemos rogado a estos dos gefes distinguidos se sirvan darnos sus informes, los cuales publicamos a continuacion.

Muy inmediata a este campo esta la concesion Plaza Montero pero es lindero con el gran establecimiento del Sr Ernesto Tornquist, que como se sabe esta todo poblado con edificios y haciendas y totalmente alambrado.

A mas todos los linderos que mas abajo se mencionan, tienen tambien, sin escepcion sus estancias pobladas y trabajando.

A este campo lo cruza el telegrafo y el camino real que va a Bahia Blanca, Guamini y Puan, pasando por su cento la galera que va a Carhue.

Para probar elocuentemente que este es el mejor campo que se ha puesto hasta hoy en venta, basta decir que el Sr Ataliva Roca lo adquirio hacen 3 años, cuando recien se abrio la primera suscricion por cuya razon el num. de orded del titulo es el 12 lo que evidencia que el Sr Roca fue el primero de los que eligieron por los escelentes informes que tuvo.

Hay otra razon para garantir que ningun campo se encuentra en mejores condiciones de venta que este, y el que, como se sabe, el Gobierno Nacional piensa hacer funcionar el puerto de Bahia Blanca muy pronto y en esta virtud que muy pronto tambien funcionar dos señaderos que se construyen alli.

Este campo no tiene ningun gravamen, no adeuda nada al Gobierno.

En nuestra casa, se daran cartas ordenes para Bahia Blanca, donde estara una persona encargada de mostrar el campo.

Los titulos son de primer orden.

Los linderos y su ubicacion los siguientes.

Por su fondo al S.O. con el lote num 47 de D A Gonzalez Chaves; por el N. O. con el lote 35 de L A Burgos; por el S. E. con el num 38 del mismo Gonzalez Chaves.

El lote 36 y el 36 prima que es el que esta en venta, linda por el N. O. con la zanja de la linea de frontera, teniendo por consiguiente la ventaja de tener un frente de defensa impenetrable.

NOTA—Podemos garantir que no hay expropiacion del Ferro Carril del Sud y que el Gobierno de la Provincia se acaba de arreglar con la empresa, para concluir la linea del Azul hasta Bahia Blanca a principio del año 1884.

THE IRISH LAND ACT.

(Concluded.)

Arrear of Rent.

Provision is made in the Act (sec. 59) to help tenants who owe arrears of rent. They must be tenants of holdings valued at £30 or under.

If they pay or settle with their landlord for one year's rent to the gale day prior to the 22nd of August, 1881, the landlord and tenant may jointly apply to the Commissioners, who may advance one half of the previous arrears (the advance not exceeding a year's rent). All other arrears which may be due beyond the amount advanced will be thereupon swept away.

For the sum advanced the landlord must pay interest to the Commissioners for 15 years, at the rate specified in the Act: and the interest during that term is added to the rent. After the 15 years are out, then no further payment of interest is required.

This provision, which is intended to free tenants from old arrears and enable them to start fresh, applies also to tenants who have been evicted for non-payment of rent since the 1st of May, 1880, where the landlord agrees to reinstate them in their holdings.

All applications must be made before the 28th of February, 1882, under this section.

Pending Ejectments.

In all cases where ejectments have been brought by landlords, prior to the 22d of August, 1881, and which are still pending, or in which decrees have been before that date obtained against the tenant, the tenant may sell his interest:—

Provided he does so before the decree has been executed, in the case of ejectments founded on notice to quit, or, in case of ejectment for non-payment of rent, provided he does so before six months elapse from the execution of the decree, and the Court may extend the time in fit cases for sale or redemption.

When the decree of judgment in ejectment has been obtained before the 22d of August, 1881, and has not been executed, or even if executed, in the case of non-payment of rent if the six months have not expired, the tenant may apply to the Court to fix the rent. The effect of this will be to preserve to the tenant his tenancy.

In cases where proceedings are pending to evict a tenant, whether taken before or after the 22nd of August, 1881, and before judgment has been obtained, the Court may suspend the proceedings to enable the tenant to have the fair rent fixed.

When a tenant has once obtained a statutory term by having his rent fixed, if the landlord serves a notice to quit or brings an ejectment in consequence of the tenant violating any of the statutory conditions, then the tenant may apply to the Commissioners, and the Court has power to stay the proceedings if the conduct of the tenant be fair and reasonable, compensating the landlord for any damage he may have suffered.

Leaseholders.

Tenants who hold under lease will be entitled, on the expiration of the lease—provided the lease expires within 60 years from the passing of the Act, that is, before 1941, to hold on as present tenants, and thus to have all the benefits of the Act.

Unfair Leases.

Where leases have been taken by tenants since the passing of the Landlord and Tenant Act, 1870, containing unreasonable or unfair provisions, and such leases were accepted by the tenant under threat of eviction, or through the undue influence of the landlord, the tenant is entitled, at any time before the 22d of February, 1882, to apply to the Court to be relieved from the lease and to hold as present tenant, with all the rights and privileges of such tenant.

Henceforth no tenant holding a farm valued at less than £150 can contract himself out of the Act by written agreement or otherwise.

Judicial Leases.

Provision is made whereby a landlord and tenant may agree the one to grant and the other to accept a lease for any term of years exceeding 31 years, on such terms as they may agree upon. The lease must be settled by the Court, and unless it be for a term over 60 years the tenant, on its expiration, will be a present tenant, and have all the rights of free sale, fair rent, and security of tenure, conferred on a tenant from year to year.

Fixed Tenancies.

The landlord and tenant may also agree that a tenancy may become a fixed tenancy—that is, that the tenant shall hold for ever, either at a rent agreed upon once for all, or else, if the parties wish, subject to revision every fifteen years.

The lease must be approved of by the Court where the landlord is only tenant for life, or otherwise a limited owner.

Labourers.

The Court may sanction the resumption by the landlord of part of the holding for the benefit of labourers in respect of cottages, gardens, or allotments, on such conditions and terms as it may think right, including full compensation to the tenant.

A tenant may, after notice to his landlord, let any portion of his land not exceeding half an acre for each labourer, and not exceeding one letting for every 25 acres of the tenant's holding, subject to selection and arrangement as to rent by the Court, with or without dwellings, to labourers employed on the holding.

In fixing the judicial rent, the Court may require cottages to be built and allotments made, and determine the rents to be paid for same, for labourers.

Tenants will be entitled to apply for an advance of money for the purpose of building dwellings for labourers, under the Landed Property Improvement Acts.

Acquisition of Land—Peasant Proprietors.

1—A tenant may agree to buy from his landlord his holding. The agreement may be negotiated and completed through the Commission at a fixed price. The Commission may advance three-fourths of the purchase money, and the landlord may agree to leave the remaining one-fourth due upon the security of the premises.

2—If a competent number of tenants on an estate are able and willing to purchase their holdings, the Commission may purchase the estate, and sell the holdings to the tenants, and advance three-fourths of the price, which shall cover all expenses.

3—All advances must be repaid by an annual sum for 35 years, at 5 per cent. At the end of that period the holding will be the tenant's property for ever, rent free. The tenant may pay off the sum due to the Commissioners more rapidly on terms favourable to himself if he find it convenient.

4—So long as any holding is subject to any advance made by the Commission, the proprietor must hold it subject to the following conditions—

a) He shall not subdivide or sublet it without the consent of the Commission, but he may sell.

b) If he becomes bankrupt the Commission may sell the holding.

c) On death of proprietor, if the holding should become subdivided by devise or intestacy, the Commission may require same to be sold.

Emigration.

When a sufficient number of persons in any district may desire to emigrate, the Commission has power to advance money to assist emigration, especially of families from the more thickly populated districts. The Commission will secure the satisfactory shipment, transport, and reception of the emigrants, and will see to their proper care and comfort in all cases in which they give assistance for the above purpose.

The above are some of the great advantages conferred on Irish tenant farmers by the Land Act (Ireland), 1881, which provides for all security in their holdings, the fixing of fair rents, and the right of free sale; and affords the opportunity to occupiers to become the owners in fee of their holdings.

It is not intended by the foregoing statement to set forth or include all the provisions of the Act, but only to afford a general view of its more important provisions.

Any person requiring information can apply (by letter) to the Secretary, Land Commission, 24 Upper Merrion street, Dublin.

LA BELLE HELENE.

Very few people attended Mlle. Gregoire's benefit night at the Colon on Saturday, and the empty seats were painfully remarkable. The settlement of the Chilian Question drew crowds to General Roca's reception, and this may somewhat account for the thin attendance.

All were anxious to see the Belle Helene's intrusion on the stiff boards of the Colon and the effect produced on the habituees of the fashionable theatre, but as many expected and anticipated several loud parts were mercilessly toned down, to the great discomfiture of those who laughed heartily over the piece in other theatres and in other countries. Mlle. Gregoire is no doubt a good Helen, but she is not equal to the ideal nursed in the minds of Homer and Offenbach; who, amongst the Greeks would have ever thought that the name of the poet would be inseparably linked to that of the composer of opera-bouffe? 'Il nous faut de l'amour' was sung with emphasis, and suits Mlle. Gregoire very well; it may be stated that this was her best part. When invoking the shades of unfortunate and never-to-be-forgotten Leda and of her parent, the swan, there lacked something in the actress: the song should begin with a semi-deprecating innocence and end with all the innuendo contained in the words and in the air. The love-scene was as lame as any similar nonsense in a grand opera. Helen sang her 'C'est un reve' very indifferently, whilst 'un mari sage' lacked all 'entrain'. Before Mr Grau leaves he should favour the Belle Helene, Paola Marié.

Paris, looked fresh from Mount Ida, something like Endymion and every inch the son of old Priam. He sang his 'Au Mont Ida' very well indeed and got through the love-scene in a tolerable manner. Kalchas, with his pockets full of false coins, cards and loaded dice, was certainly the favorite of the evening, and constituted the true type of the cheating augur after old Cato's heart. Menelas was at home in his part; his departure for Creta on a visit to the labarinth and Pasiphæ, to the Minotaurs and home of Idomeneus, was very affecting, and he only forgot his umbrella and night-cap. His return was a rather philosophical piece of acting under the circumstances, and revealed rather stoic propensities out of place. Mlle. Merle sang her part of Orestes brilliantly, whilst Achiles was very miserable: Leon used to interpret the part of the son of Peleus much better, when he rushed forward, whilst the steel plate on his vulnerable heel clinked, as if lance in hand he mistook the leader of the orchestra for the great son of Priam. On the whole the Belle Helene made one laugh, but in detail it cannot stand much criticism. All wish to see Mlle. Paola Marié interpret the part of Helen.

BOYCOTTING EXTRAORDINARY.

A public meeting was held at Claremorris on Wednesday, a clergyman in the chair, for the purpose of Boycotting the police at the forthcoming athletic sports, which are to come off the first week in September. It appears the constabulary have signified their intention of competing for the several events, and the meeting was held for the purpose of compelling the committee not to accept the entries, and also to object to a landlord's name as a patron of the sports. The greatest excitement prevailed, it being fair day in the town. The meeting separated when the executive committee of the sports had signified their intention of carrying out their wishes.

Boycotting has assumed a new form in some places. Mrs. Power Lalor, a lady who owns some land near Templetuohy, county Tipperary, having evicted one of her tenants, who was five years in arrear of his rent, the people of the district have for the last two Sundays been placing the evicted man in Mrs. Power Lalor's pew in the parish chapel, which she herself built. The parish priest warned her last week that if she presented herself at the pew on the following Sunday there would be sure to be bloodshed. She, however, declined to yield to the threat, and presented herself at the pew on Sunday last as usual. The evicted man was also placed in the pew, and but for the interference of the priest there would have been a serious disturbance. Miss Lalor, her daughter, plays the harmonium in the chapel, and the people threatened that if she was present on Sunday last and played a single note on the instrument, they would leave the church in a body. Miss Lalor not thinking it desirable that such a scene should be witnessed in a place of worship, refrained from taking her customary place at the harmonium and as leader of the choir, which she has been chiefly instrumental in forming in the church. On Monday the people of the district assembled in large numbers on the land and built a house for the evicted tenant and put him in possession, and on Tuesday, a detachment of the 64th Regiment, from Templemore, proceeded to the place and pulled down the newly-erected house.

Messrs. A. Eastman & Co. Bs. As.

Dear Sirs,

I have been using your "Golden Fleece Dip" for the cure of scab in sheep during the whole year and I have not seen its equal in these parts.—It is an effectual and rapid cure, it not only destroys the scab in a very short time, but soon produces a new growth of wool.—

I have delayed writing you sooner in order that I might be the better able to judge of the effects of the medicine and to compare it with the remedies used by other sheepfarmers, none of whose flocks are at all so free from scab as mine, although they have been working far more constantly than I, to keep down scab, as regards its cost, it is the most profitable of any I have ever used or know of.

You are at liberty to use this as you may see fit and remain

Dear Sirs,

Yours truly

WILLIAM TUMBELTY.

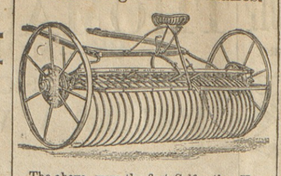
HOWARD'S CELEBRATED MACHINES

Howards' Self-Acting Horse Rakes.



The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extrordinary success various attempts have b en made to imitate them, but J. & F. HOWARD'S simple brake principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison but complicated expedients.

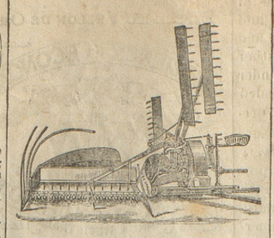
OOOO, 22 teeth, 52in. wrought wheels, 10 feet wide, weight 6 cwt.

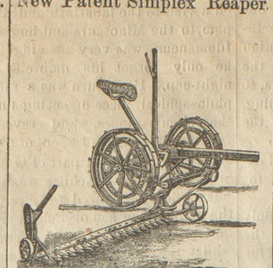
Howard's New Patent Simplex Mower.



J. & F. HOWARD'S Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. HOWARD'S patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt.

Howard's New Patent Simplex Reaper.



J. & F. HOWARD'S Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt.

The above Machines kept in Stock by the Principal Hardware Merchants.
